Other drug or drug class not listed: (Please call for a quote) _____

Note 1: Samples that are reported as "identified" are based solely on screening results. Legally defensible data requires confirmation by more rigorous testing, additional sample quantities, and adherence to a strict chain of custody. Please contact the lab in advance of sending samples requiring defensible data. Confirmatory testing typically requires a minimum of 10 mL of urine or 5 mL of serum/plasma. If blood is sent please send two blood tubes.

Note 2: Results are typically sent by fax or emailed within three business days from receipt of sample, however some tests will require more time to process. Send sample by overnight delivery to arrive Monday through Friday. Weekend arrivals are not accepted. Blood samples should be refrigerated (**do not freeze**) at collection and shipped in cold packs. Urine samples should be frozen after collection and shipped in cold packs.
